Company Overview

Agenda is an award-winning boutique public affairs and integrated communications firm with unparalleled experience advancing key issues, interests, policies, and trends in the U.S., Europe, Africa, and across all 30 NATO member nations. Agenda specializes in developing refined and targeted engagement programs that incorporate traditional, social, digital, and earned-media campaigns designed to build broad public awareness and support – or targeted action and mobilization – by leveraging cutting-edge tools to engage key audiences. They have done this effectively for leading foundations, institutions, universities, state and federal agencies, global food providers, energy companies, tribes, and multinational organizations such as NATO and the UN. Agenda has extensive branding, marketing, advertising, public relations, advocacy, and strategic planning experience. They handle everything from multi-million-dollar, multi-market, campaigns to modest-budget efforts for a wide variety of industries, governments, and organizations. But regardless of the scale of the assignments, Agenda brings fresh thinking, perspective, and ingenuity to every challenge. www.agenda-global.com

Contract Use

This contract is available for use by all federal government agencies, as a source for Professional Services, for worldwide use. Executive agencies, other Federal agencies, mixed –ownership Government corporations, and the District of Columbia; government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the Executive Branch of the Federal Government.

Contract Scope

The contractor shall provide all resources including personnel, management, supplies, services, materials, equipment, facilities, and transportation necessary to provide a wide range of professional services as specified in each task order.

Services specified in a task order may be performed at the contractor’s facilities or the ordering agencies’ facilities. The government will determine the contractor’s compensation by any of several different methods (to be specified at the task order level) e.g., a firm-fixed price for services with or without incentives, labor hours or time-and-material.

Special Item Number (SIN) Descriptions

The Special Item Numbers (SINs) available under this contract provide services across the full life cycle of a project. Team Arrangements

Teaming Arrangements may be possible with any vendor holding Current GSA Multiple Award Schedule.

Instructions for placing orders for services based on GSA schedule hourly rates

GSA provides a streamlined, efficient process for ordering the services you need. GSA has already determined that Agenda, LLC. meets the technical requirements and that our prices offered are fair and reasonable. Agencies may use written orders, facsimile orders, credit card orders, blanket purchase agreement orders or individual purchase orders under this contract.

If it is determined that your agency needs an outside source to provide Professional Services, follow these simple steps:

Orders under the Micro-Purchase Threshold
Select the contractor best suited for your needs and place the order.
Orders in-between the Micro-Purchase Threshold and the Simplified Acquisition Threshold
Prepare a SOW or Performance Work Statement (PWS) in accordance with FAR 8.405-2(b).
Prepare and send the RFQ (including SOW and evaluation criteria) to at least three GSA Schedule contractors.
Evaluate, then make a “Best Value” determination.
Note: <i>The ordering activity should request GSA Schedule contractors to submit firm-fixed price to perform the services identified in the SOW.</i>
Orders over the Simplified Acquisition Threshold
Prepare the RFQ (including the SOW and evaluation criteria) and post on eBuy to afford all Schedule contractors the opportunity to respond, or provide the RFQ to as many Schedule contractors as practicable, consistent with market research, to reasonably ensure that quotes are received from at least three contractors.
Seek price reductions.
Evaluate all responses and place the order, or establish the BPA with the GSA Schedule contractor that represents the best value (refer to FAR 8.405-2(d)).
Note: <i>The ordering activity should request GSA Schedule contractors to submit firm-fixed price to perform the services identified in the SOW.</i>

Developing a Statement of Work (SOW)	
The SOW, include the following information: <ul style="list-style-type: none">• Work to be performed,• Location of work,• Period of performance;• Deliverable schedule, and• Special standards and any special requirements, where applicable.	Preparing a Request for Quote (RFQ)- <ul style="list-style-type: none">• Include the SOW and evaluation criteria;• Request fixed price, ceiling price, or, if not possible, labor hour or time and materials order;• If preferred, request a performance plan from contractors and information on past experience; and include information on the basis for selection.• May be posted on GSA’s electronic RFQ system, e-Buy

For more information related to ordering services, go to <http://www.gsa.gov/schedules-ordering> and see guidelines in the Multiple Award Schedule (MAS) Desk Reference Guide.

Blanket Purchase Agreement

Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider:

- The scope and complexity of the requirement(s);
- The need to periodically compare multiple technical approaches or prices;
- The administrative costs of BPAs; and
- The technical qualifications of the schedule contractor(s).

Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (e.g. estimated quantities, work to be performed), delivery locations, and time.

When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

Ordering from BPAs:

Single BPA. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

Multiple BPAs. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall:

- Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and
- Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

BPAs for hourly rate services. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

Duration of BPAs. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

Review of BPAs:

The ordering activity that established the BPA shall review it at least once a year to determine whether:

- The schedule contract, upon which the BPA was established, is still in effect;
- The BPA still represents the best value (see 8.404(d)); and
- Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

The ordering activity shall document the results of its review.

Service Contract Labor Standards: Agenda uses no SCLS/SCA-eligible labor in the execution of these programs. The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
